

Bachelor of Psychological Science (Honours) Graduate Diploma of Psychology

Timetable SP51 2021 (Full-Time and Part-Time)

***All classes will be in campus*

PY4112: Ethics for Research and Professional & Evidence Based Practice

Lecturer Name: **Dr. Divjyot Kaur**

Full Time

All workshops are on **Monday at 1500 – 1750**

Venue: #C3-04

Psychology as a discipline and a profession is firmly founded upon the model of the scientist/practitioner. This subject will further define the underpinning ethical considerations in light of an examination of the evidence base for psychological practice. The ethics component of this subject will address ethical issues relevant to professional practice as a psychologist, including the role of ethical behavior, codes of ethics and competencies specified by the Australian Psychological Society. The professional and evidence based practice component of this subject will prepare students for transition into the work environment, through the development of core capabilities associated with practice in the profession.

There are 24 hours of in-class contact time plus 2 hours of online learning.

Week	Date	Sessions	Hours
1	15-Mar-2021	Workshop 1 Ethics and Professional Practice	3
2	22- Mar-2021	Workshop 2 Ethics and Professional Practice	3
3	29- Mar-2021	No Class	-
4	05-Apr-2021	Workshop 3 Clinical Psychology	3
5	12- Apr-2021	Workshop 4: Marketing and Psychology Practice	3
Study Break	19- Apr-2021	No class	-
6	26- Apr-2021	Workshop 5 Community Psychology	3
7	03-May-2021	Workshop 6: Occupational Health / Organisational Psychology	3
8	10- May-2021	Workshop 7: Psychology and the Law (Forensic Psychology)	3
9	17- May-2021	Workshop 8: Presentations	3
10	24- May-2021	Online learning	2

PY4114: Operationalising the Scientific Practitioner Model
Lecturer Name: **Dr. Jagdeep Kaur Sabharwal**

Full Time

All workshops are on **Wednesday at 1500 – 1750**
Venue: # C2-14

Psychological assessment is one of the most important activities performed by psychologists in both professional practice and research. This subject covers three main areas: (1) knowledge of psychometric principles including norms, reliability, validity and test construction; (2) understanding of basic assessment strategies used in psychological practice and (3) skills in the use and interpretation of commonly used standardised psychological test instruments.

Week	Date	Sessions	Hours
1	17-Mar-2021	Lectorial 1	3
2	24- Mar-2021	Lectorial 2	3
3	31- Mar-2021	Lectorial 3	3
4	07-Apr-2021	Lectorial 4	3
5	14- Apr-2021	Lectorial 5	3
Study Break	21- Apr-2021	No Lectorial (Assignment preparation)	-
6	28- Apr-2021	Lectorial 6	3
7	05- May-2021	Lectorial 7	3
8	12- May-2021	Lectorial 8	3
9	19- May-2021	Lectorial 9	2
10	**26-May-2021	Public Holiday - No Lectorial	-

** 26-May-2021: Public Holiday – Vesak Day

PY4113: Design and Analysis for Research
Lecturer Name: **Dr. Patrick Lin**

Part Time

All seminars are on **Wednesday at 1900 – 2150**
Venue: #B2-06

This subject is concerned with advanced methods of data analysis and predictive modelling. The emphasis will be upon refining the design of investigations so as to best leverage data analysis to answer the research question. Each seminar session includes a practice workshop (except week 1 and 10).

Week	Date	Sessions	Hours
1	17-Mar-2021	Introduction of PY4113 and the Assessments (2 hours)	2
2	24- Mar-2021	Revision of basic concepts (variance, covariance, correlation and regression) (1.5 hours)	3
3	31-Mar-2021	Multiple and hierarchical regression (1.5 hours)	3
4	07- Apr-2021	Moderation 1 (1.5 hours)	3
5	14- Apr-2021	Moderation 2 (1.5 hours)	3
Study Break	21- Apr-2021	Moderation 3 (1.5 hours) No Class	-
6	28- Apr-2021	Mediation 1 (1.5 hours)	3
7	05-May-2021	Mediation 2 (1.5 hours)	3
8	12- May-2021	Mediation 3 (1.5 hours)	3
9	19- May-2021	Conditional Process & Revision (2 hours)	2
10	**26- May-2021	Public Holiday - No Class	-

** 26-May-2021: Public Holiday – Vesak Day

PY4115: Psychology: Now and the Future
Lecturer Name: Dr. Chan Kai Qin

Part Time

All seminars are on **Tuesday at 1900 – 2150**
Venue: #C3-04

This subject is concerned with the development, current state, and future direction of selected areas in psychology and the present state of research in particular topics. Important milestones in the theoretical and empirical bases for current theory in the selected areas will be reviewed and how these have led to the present models of our understanding of behavior. Projections for future development, although speculative, will be discussed across a range of psychology topics in student-led seminars. The Jo Wale seminars will consist of a series of seminars presented by visiting academics who have and are actively researching a particular topic. NB: Students at the Singapore campus will have access to recorded seminars via online links and will need to schedule their time independently for this activity.

Students who successfully complete this subject will be able to critically evaluate research in psychology, demonstrate an advanced knowledge of various areas of psychology, and evaluate and integrate psychological knowledge. These outcomes will contribute to your overall achievement of course learning outcomes.

There are 16 hours of in-class contact time plus 10 hours of Jocelyn Wale online seminars.

Week	Date	Sessions	Hours
1	16-Mar-2021	Introduction	2
2	23- Mar-2021	No class	-
3	30- Mar-2021	Student-led seminar	2
4	06-Apr-2021	Student-led seminar	2
5	13- Apr-2021	Student-led seminar	2
Study Break	20- Apr-2021	Mid-trimester break – No class	-
6	27- Apr-2021	No class	-
7	04-May-2021	Student-led seminar	2
8	11- May-2021	Student-led seminar	2
9	18- May-2021	Student-led seminar	2
10	25- May-2021	Infographics presentation	2
