

Bachelor of Psychological Science (Honours) Graduate Diploma of Psychology

Timetable SP51 2019 (Full-Time and Part-Time)

PY4112: Ethics for Research and Professional & Evidence Based Practice
Ms. Hina Sheel

All workshops are on Mondays at 0900 – 1150
Venue: #C3-04

Psychology as a discipline and a profession is firmly founded upon the model of the scientist/practitioner. This subject will further define the underpinning ethical considerations in light of an examination of the evidence base for psychological practice. The ethics component of this subject will address ethical issues relevant to professional practice as a psychologist, including the role of ethical behavior, codes of ethics and competencies specified by the Australian Psychological Society. The professional and evidence based practice component of this subject will prepare students for transition into the work environment, through the development of core capabilities associated with practice in the profession.

There are 24 hours of in-class contact time plus 2 hours of online learning.

Week	Date	Sessions	Hours
1	18-March-19	Workshop 1	3
2	25-March-19	Workshop 2	3
3	01-April-19	Workshop 3	3

7	06-May-19	No Class	-
8	13-May-19	Workshop 7	3
9	20-May-19	No class	-
10	27-May-19	Workshop 8: Presentations	3

PY4113: Design and Analysis for Research
Dr. Patrick Lin

All seminars are on Tuesday at 1500 – 1750
Venue: #B2-06

This subject is concerned with advanced methods of data analysis and predictive modelling. The emphasis will be upon refining the design of investigations so as to best leverage data analysis to answer the research question.

Week	Date	Sessions	Hours
1	19-Mar-2019	Introduction/Regression	3
2	26-Mar-2019	Mediation 1	3
3	02-Apr-2019	Mediation 2	3
4	09-Apr-2019	Mediation 3	3
5	16-Apr-2019	Mid-term	2
6	23-Apr-2019	Study Week	-

PY4114: Operationalising the Scientific Practitioner Model
Dr. Jagdeep Kaur Sabharwal

All workshops are on Thursdays at 1500 – 1800
Venue: #C3-04

Psychological assessment is one of the most important activities performed by psychologists in both professional practice and research. This subject covers three main areas: (1) knowledge of psychometric principles including norms, reliability, validity and test construction; (2) understanding of basic assessment strategies used in psychological practice and (3) skills in the use and interpretation of commonly used standardised psychological test instruments.

Week	Date	Sessions	Hours
1	21-Mar-2019	Workshop 1	3
2	28-Mar-2019	Workshop 2	3
3	04-Apr-2019	Workshop 3	3
4	11-Apr-2019	Workshop 4	3
5	18-Apr-2019	Workshop 5	3
6	25-Apr-2019	Study Break	-
7	02-May-2019	Workshop 6	3
8	09-May-2019	Workshop 7	3
9	16-May-2019	Workshop 8	3
10	23-May-2019	Workshop 9	2

PY4115: Psychology: Now and the Future
Dr. Chan Kai Qin

All seminars are on Monday at 1000 – 1200
Venue: #C2-04

This subject is concerned with the development, current state, and future direction of selected areas in psychology and the present state of research in particular topics. Important milestones in the theoretical and empirical bases for current theory in the selected areas will be reviewed and how these have led to the present models of our understanding of behavior. Projections for future development, although speculative, will be discussed across a range of psychology topics in student-led seminars. The Jo Wale seminars will consist of a series of seminars presented by visiting academics who have and are actively researching a particular topic. NB: Students at the Singapore campus will have access to recorded seminars via online links and will need to schedule their time independently for this activity.

Students who successfully complete this subject will be able to critically evaluate research in psychology, demonstrate an advanced knowledge of various areas of psychology, and evaluate and integrate psychological knowledge. These outcomes will contribute to your overall achievement of course learning outcomes.

There are 16 hours of in-class contact time plus 10 hours of Jocelyn Wade online seminars.

Week	Date	Sessions	Hours
1	18-Mar-2019	Workshop 1 - Introduction	2
2	25-Mar-2019	No Meeting - Seminar Preparation	-
